Fruit Juice Squeezer

This fruit juice squeezer is perfect to squeeze oranges, limes and so on.

All measurements are in millimeters.

Watering Cap

Need to water the plants and don't have a watering can?

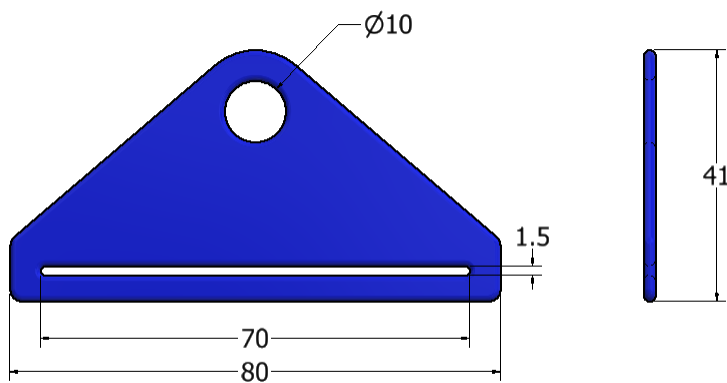

Then turn a normal plastic bottle into a watering can with this cap.

Toothpaste Squeezer

This device helps you get all of the toothpaste out of it's tube.

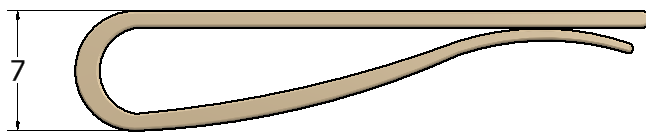

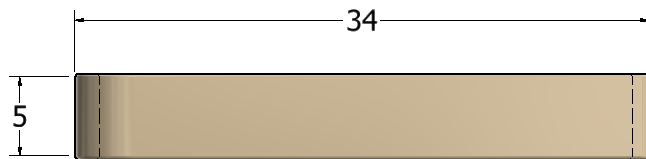

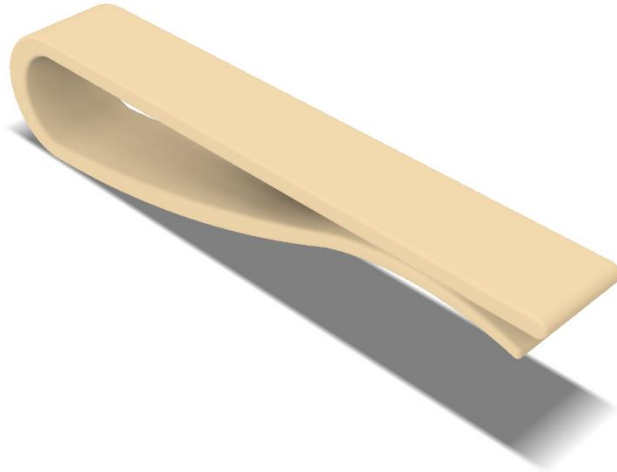

Can also be used on other tubes as well, of course.

Clamp

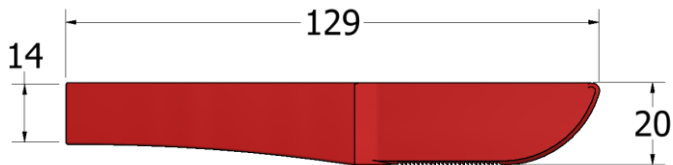

Need a clamp? No problem, just print it!

Works for just about anything, pile of papers, laundry or even as a tie clip!

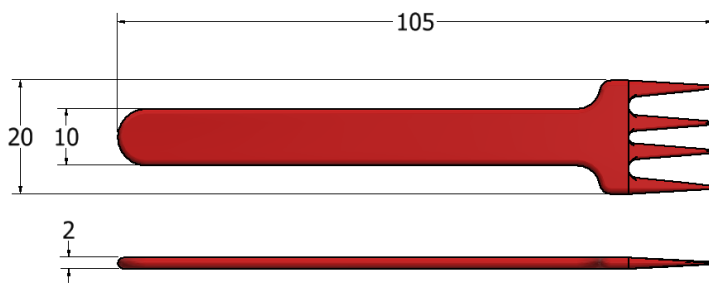

Knife

This simple knife is thin and therefore perfect for travel where need to pack lightly.

Fork

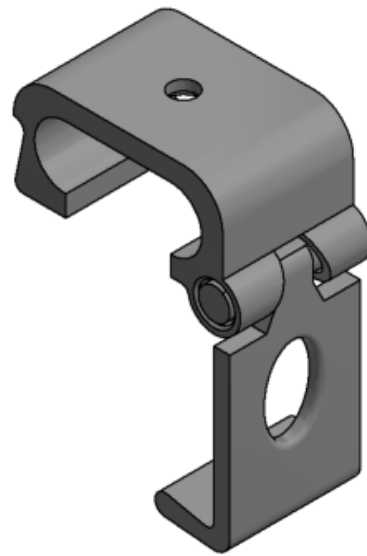

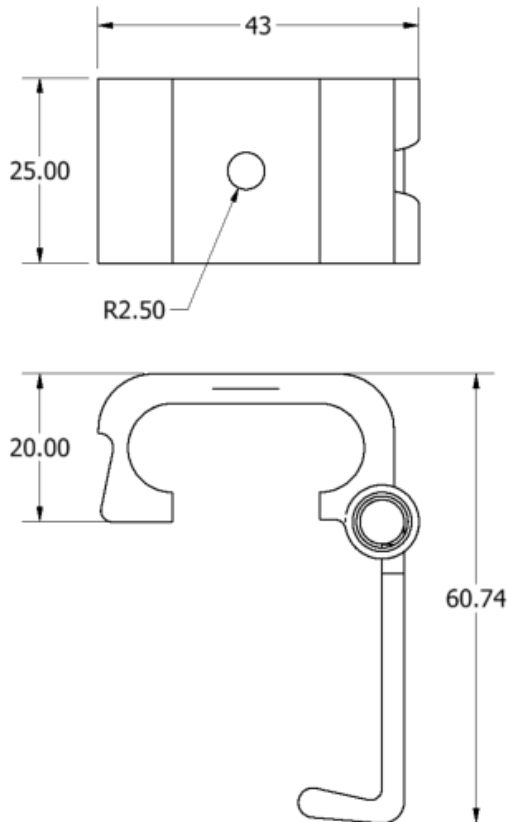

This simple fork is thin and therefore perfect for travel where need to pack lightly.

Cable Organizer

Are the cables driving you mad? No problem, just 3D print this cable organizer.

Just insert the cables and close. Possible ways to fasten include double sided tape or screwing in place.

From Thingiverse

All measurements are in millimeters.
